The screenshot shows the 'Buy units' step of the TAITRA CargoX platform. The interface includes a navigation bar with tabs: 'Buy units', 'Pre-forma invoices', 'Invoices', 'Monthly summary', and 'Price list'. The 'Buy units' tab is active, and a green dot indicates the current step. Below the navigation bar, there are two progress indicators: 'Choose amount' (active) and 'Payment & Billing'. The main content area asks 'How many units (U) do you want to buy?' and provides a slider to select the amount. The slider is set to 1500 units, and the text 'Amount of units (U)' is displayed above the slider. Below the slider, there is a text input field showing '1500' and a note 'Minimum purchase: 15 U'. To the right of the slider, it says '100000 U or more'. Below the slider, there is a section titled 'You will receive:' which shows '1,500 regular units'. Below this, there is a section titled 'With 1,500 U you can pay for:' which lists three options: '~9 Egypt ACI filings', '~100 documents with full blockchain support (i.e. Smart B/L)', and '~500 documents with partial blockchain support (i.e. certificates)'. Below the list, there is a section titled 'Price to pay:' which shows '\$1,500.00'. At the bottom, there is a green button labeled 'Go to next step'.
